NOW THE LEGISLATURE.

A bill has been introduced in the Asthe Fourth Avecue Tunnel. It was offered boat. by Assemblyman Sulzer, a fearless young man, who will champion it in this branch of the Legislature, we will have something to be proud of. THE EVENING WORLD purposes to follow the course of this bill, to keep an alert eye for any attempt at unfair lobbying and to The fight to make the Fourth Avenue Tunnel safe is based on necessity, justice and humanity.

The bill is fair and moderate. It asks that the Legislature shall make a law ordering that the tunnel shall "be ventilated smoke steam and such other atmospheric impurities as render traffic dangerous," and other accidents in said tunnel and to enployees of said steam railroad, operating Fair. tions on the tracks." The bill's object is to prevent any more tunnel disasters and to insure the travelling public against the risk of slaughter that they run daily on this

that the Company's management was perfectly willing to make the tunnel light, but wanted the Legislature to direct it to first. What the New York Central will now do

The fight of the public against this great and unbending corporation goes on apace, and if right lends weight and strength victory should perch on its banners.

INVESTIGATION NECESSARY.

An investigation should be made into the charges against Joseph Barondess, was accused of planning the attack against GREENBAUM's Jamaica cloakmaking establisment. The fail- equally true of the mills of men. ure of the Queens County Grand Jury to indict him makes it necessay. On the night of BARONDESS's arrest Inspector BYRNES gave out a detailed statement that BARONDESS was present at a meeting at 385 Bowery, on the night of March 7th; that he sent a man out to buy vitriol; that he distributed it to the rioters, and, indeed, gave Bakonpess's alleged remarks. The Inspector's informant, he said, was a striking cloakmaker who was present.

On the night of March 7th BARONDESS was in Newark, and there was no meeting at 385 Bowery. Then it was said that the meeting was at 131 Allen street on March 8th, and one ISAAC WEINSTEIN was brought forward as the police's informant. Before the Queens County Grand Jury yesterday, WEINSTEIN said be knew nothing personally about Baronness, and had got all his information from the newspapers.

There is something about the case that has a queer look. WEINSTEIN did sign an affidavit before a Jamaica police magistrate implicating BARON ness, whether or not he knew what the affidavit contained. Yesterday Wein. STEIN was discharged. If he committed perjury, he should be punished But if he did not-It is here that investigation is necessary.

WILL PARNELL RESIGN?

Mr. HEALY has declared himself ready to accept Mr. PARNELL's proposal that the should both resign their seats in Parliamen and put the popularity of their respective claims upon the people to the test by then coming forward as candidates for re-cled tion. The Parnellites of Cork have teld graphed to Mr. PARNELL pressing him for to do in the face of Mr. HEALT's acceptance of his proposal.

The Irish cause is suffering here in America from the confusion in that country rising from the rivalry between the And, leaders. The difference in feeling towards the late Irish envoys and that felt for the partisans of Mr. Pannell, who are now in this country soliciting contributions, is already noticeable. Thirty thousand dollars were subscribed to the former at their first reception; seventeen hundred dollars to the latter.

Mr. NORMAN, the Baltimore delegate to the Irish National League, says Mr. PAR-MELL's envoys have little to expect from that city and advises them to go home until the eadership is settled. Certainly they will do little good to Mr. Parnett by bringing out a disinclination to contribute on the part of Irish sympathisers here. What the real

OUR NAVY IS LOOKING UP.

Mr. Billes, a prominent member of the Council of Naval Architects, at its annual meeting in London yesterday read a paper in which he praised the Navy of the United States for its well-organized condition. American designers and builders were commended, and our new boats were deciared the equal of England's. Mr. Biles admitted the superior arms

have had a number of sufferers apply to me for relief, said a chiropodist to a St. Louis Globe-Democrat reporter. If a man has a corn I can take it out If a man has a corn I can take it out and relieve him, but if he is suffering from what I call rubber fever I can't help him and can only prescribe liberal foot bathing and a removal of the cause of the trouble.

Rubbers should only be worn to keep wet out, and they should be removed the moment the wearer gets indoors. Failure to note this gives a man wet feet in a far worse sense than if he had waded through mud ankle deep.

It was the trouble resulting from foreing the perspiration to sonk the stockings and keep the feet perpetually damp that drove rubber soled boots out of the market. he market.

Even loose rubbers are a source of innger and the cause of many more serious colds than they avert.

to a Newly Wedded Pair. The now pending Medical Commission einch bill, by which the fellows on the inside expect to make it warm for the fellows on the outside, recalls facts concerning a little difficulty in the family of an esteemed naval surgeon, which

are about as follows, says Derrick Dodd in the San Francisco Examiner. It seems that Dr. Pillsbury, of the United States Service, was married about three years ago to a lovely Los Angeles lady, but was almost immediately ordered to join the Asiatic Squadron, his bride remaining here. From one emergency or another he was kept abroad until a few weeks ago. During his absence his wife prepared a surprise for her husband by studying medicine. Un-

fortunately, however, she entered a homeopathic college, her husband being of the allopathic persuasion.
